Projects

Mar 2023/Jun 2023

Animated Explainer Video - "The Butterfly"

- Conceptualized and crafted storyboards, setting the art direction for the project.
- Leveraged the Adobe Creative Cloud Suite to produce assets.
- Seamlessly integrated Procreate animations into Adobe After Effects for dynamic compositing.
- Scripted and recorded voiceovers to enhance sound design.
- Incorporated traditional animation principles to maximize visual impact.
- Effectively managed multiple animated sequences, meeting a tight month deadline.

Nov 2022/Dec 2022

Motion Title Sequence - "What We Seek"

- Generated sketches, and explored multiple variations.
- Followed the standard safe title guidelines to add name plates throughout the title sequence.
- Used 12 principles of animation to make visually captivating sequences.
- Created various storyboards before creating the final animatic version.
- Utilized contrast between colours and motion to draw more attention to the piece.

Nov 2022 / Dec 2022

Character Animation - "Tranquil"

- Crafted a storyboard and animatic to allow for a easier workflow.
- Illustrated and colourized concept art before finalizing character and background design.
- Drew the key poses of animation, to use the inbetweening method of animation to create an efficient workflow.
- Composited the animation into Adobe After Effects to add more visual elements and animated texture to the project.
- Layered different textures while using different effects to create a illustrated look for the Animation

Software

Adobe After Effects 

Adobe Illustrator 

Adobe Photoshop 

Figma 

Cinema 4D 

Adobe Premiere Pro
